Twenty-five years ago the American Academy of Pain Management (the Academy) began building a foundation—a membership base—that was truly inclusive and represented clinicians from a wide variety of disciplines. The founders recognized that, because of the complexity of chronic pain, patients would not get “better” with single modality treatments (i.e., medications or procedures) and that optimal care required multiple interventions and treatments by an interdisciplinary team. This is what has always set our organization apart from the other professional pain organizations and given us our strength, agility, and ability to grow as new understandings about pain emerge.

Our interdisciplinary approach is most evident at our Annual Clinical Meeting, *Exploring the Science, Practicing the Art*, which will take place in Phoenix from September 18-21. Attendees who’ve been at our past meetings tell us repeatedly that our meeting is different from the others in the variety of speakers, topics and, most of all, the open mindedness of the attendees. They also acknowledge the professional growth and inspiration that come from meeting with clinicians who represent multiple disciplines coming together to discuss a problem, deconstruct a case study, or ask different questions.

Our “main stage” programs present research in new and exciting ways that will challenge you intellectually, emotionally, and ethically. The individual sessions look at several pain conditions from a variety of perspectives, and our second annual Pain Game will allow you to test your knowledge in a competitive environment. It is good fun.

Visit our website at [www.aapainmanage.org](http://www.aapainmanage.org) for complete information about the meeting, including course descriptions, learning objectives and speaker bios. Make your plans today to celebrate our 25th Anniversary with us and join with the best and the brightest in an open, interactive, and engaging forum!

# LEARNING OPPORTUNITIES

## continuing education credit

The Academy is applying for approval of 26 hours of credit (6 hours pre-meeting; 20 hours meeting) for the following disciplines:

### Chiropractors

Applying for approval by the Southern California University of Health Sciences School of Professional Studies.

### Counselors

The American Academy of Pain Management is an NBCC-Approved Continuing Education Provider (ACEPTM) and may offer NBCC-approved clock hours for events that meet NBCC requirements. The American Academy of Pain Management solely is responsible for all aspects of the program.

### Family Physicians

Applying for approval by the American Academy of Family Physicians.

### Naturopathic Physicians

Applying for approval by the Oregon Board of Naturopathic Medicine.

### Nurses/Nurse Practitioners

Applying for approval by The University of Nebraska Medical Center College of Nursing Continuing Nursing Education which is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

### Nurse Anesthetists

Applying for approval by the American Association of Nurse Anesthetists.

Oregon State University College of Pharmacy

### Pharmacists

Applying for approval by The Oregon State University College of Pharmacy which is approved by the Accreditation Council on Pharmaceutical Education as a provider of continuing pharmaceutical education.

### Physical Therapists

Applying for approval by the Texas Board of Physical Therapy Examiners.

### Physicians

The American Academy of Pain Management is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Pain Management designates this live activity for a maximum of 26 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

### Psychologists

The American Academy of Pain Management is approved by the American Psychological Association to sponsor continuing education for psychologists. The American Academy of Pain Management maintains responsibility for this program and its content.

### Social Workers

Approved by the Florida Board of Clinical Social Work, Marriage and Family Therapy and Mental Health Counseling, provider #50-84. Expires 3/31/15.

Please note: the Academy is not offering continuing education hours/credits for acupuncturists, podiatrists or dentists at this meeting. This list is in the process of being updated. If you have any questions about CE hours/credits listed above, please contact Cathleen Coneghen, Education Manager, at (919) 890-5215 or aapmedu@aapainmanage.org.

## who should attend

Any clinician who practices, or is interested in practicing pain management from an integrative perspective, will benefit from the meeting.

## learning objectives

After the meeting, participants will be able to:

- Describe the benefits of using an integrative model of care to manage pain.
- Explain how research is supporting integrative pain management techniques.
- Assess pain using a variety of strategies.
- Create a treatment plan for the patient with chronic pain that incorporates complementary, lifestyle, and mind-body therapies when appropriate.

## partners

Our meeting is a collaborative effort and each year we look to our partners to help us create and promote the meeting to their constituents. This marks the sixth year that the Academy has partnered with the University of Arizona Center for Integrative Medicine and graduates from their fellowship program will be presenting throughout the meeting. For the third year, we are partnering with Project ECHO™ Chronic Pain and Headache Clinic at the University of New Mexico, and for the second year, the University of Nebraska School of Nursing and the Oregon State University College of Pharmacy will partner with us and continue to provide accreditation.
